B E M H S S VADAKARA
10th high school(2015-2016)
percentage-83%

ACADEMIC PROJECTS

INDOOR AIRPORT
In recent smartphones and tablets, applications which provide an accurate navigation system are most frequently used. These applications make use of GPS to provide a better navigation to the user with accurate location of the user. But these navigation systems to be used inside a closed building is still a challenge due to the unavailability of GPS signalsThe QR code is a 2D code that contains the location information which provide a better navigation inside the building.

DECLARATION

Hereby declare that all above information is true to best of my knowledge
